Fantasy 120

Media Player with USB HDD enclosure

Dimensions: 250 x 180 x 40 mm

Weight: Approximately 822g – Without HDD

Introduction

You will use your DSC and DV to record all of your life, and most of people would like to enjoy their happiness on TV in the living room. Actually, what you need is a media player which can connect to TV and without any computer's assistance.

Fantasy 120/122, a Multimedia TV Play Station, integrates attachable USB2.0 2.5"HDD. Supports popular image files, audio files, and video files viewing displayed on TV. You can playback MP3, JPG, VCD, DVD, and MPEG4 files in you living room by remote controller easily. Fantasy120/122 is aimed at providing the enjoyment of digital multimedia to users in the digitalized era. The design is combined two major partitions-portable; USB2.0 2.5"HDD and 6 in 1 memory card reader. Everyone can playback their audio/video files from memory card or HDD directly. Just like easy appliance of TV set, the only thing you need to do is to power ON Fantasy 120/122 and enter the remote controller only.

Fantasy 120 equips innovative attachable HDD design. Actually, it combines one general USB2.0 2.5" HDD enclosure with memory card multimedia player in the one same box. You can use this USB2.0 portable HDD with PC to store all of your media files which maybe from you DSC or internet downloading. Then, just plug this USB2.0 HDD into F120, and enter into your entertainment world immediately.
