GERMANY PATENT NO. 20 2005 012 068.5

JAPAN PATENT NO. 3115081

Introduction

Victoria 120B, USB2.0 fingerprint authentication 2.5"HDD, integrates different high technology to let you enjoy "**User Authentication**" and "**Security data storage**" functions. Victoria 120B contains fingerprint authentication technology; you never need to remember hundreds of your password or ID number when you are working on computer. Your fingerprint will replace any passwords or IDs easily.

Equips fingerprint authentication and Enova X-wall hardware DES encryption/decryption ASIC engine will protect your important and private data security. Without your fingerprint, no one can read any data that has been encrypted from Victoria 120B. Even though others take the HDD out, they still cannot read the data because of our encryption/decryption design.

Moreover, Victoria 120B still combines some other software features that let users to enjoy the benefits of fingerprint authentication technology. Victoria 120B is not only a fingerprint protective HDD but also a fingerprint authentication reader for your secret and convenient life.

Features

- Fingerprint authentication for HDD data access. Up to five sets fingerprint data can be saved in this system
- Big fingerprint sensor area for easier usage.
- **AIAC**-Advanced image auto-calibration technology. No matter what your fingerprint skin is dry or wet, it can get clearer fingerprint image quality easily.
- Fingerprint Authentication HDD protection software: BioFlash (RUN.EXE)
 - **No need to install any driver**
 - **Support East/West 7 Languages**
 - **Protect HDD access by user's fingerprint**
 - **Easy operation for fingerprint enrollment**
 - **Fingerprint identification with high accuracy and speed**
- Equips Enova X-wall 40bits DES hardware encryption/decryption ASIC for the whole HDD security protection. (The designs with 64/128/192-bit encryption are available by request.)
- USB2.0 interface up to 480Mbps and plug and play function
- Fingerprint Authentication HDD protection software build-in internal flash memory. You do never need to install fingerprint authentication software when you change to the other computer.
- Dust and impact resistant plastic cover design for fingerprint sensor area protection.
- Aluminum Heat sink and thermal foam rubber and HDD cooling design
- Windows XP/2000 supported. (Victoria 125M is for Mac version)
- The device of USB2.0 bus power makes user more easier to carry and use
